The map was published in *Universus terrarum orbis scriptorum calamo delineatus* by Lasor a Varea in Padova, in 1713. Lasor a Varea illustrated his geographical work with almost 500 copper engravings, based on most famous small format maps from the 16th and 17th century, such as maps from Valeggio (*Raccolta*, 1595), Porcacchi (*Le Isole più famose del mondo*, 1572), Rosaccio-Franco (*Viaggi a Costantinopoli*, 1598) and Magini (*Geografia*, 1596).
