Description:

Richly annotated example of Lotter's 4 sheet map of the newly formed United States, based upon a map originally published by Bowen & Gibson and later by Jefferys, and Sayer & Bennett.

The map is a completely different engraving and includes a striking cartouche showing trade in America. The geography and insets are largely unchanged from the contemporary Sayer & Bennett map.

One of the map's two insets is a map of the Gulf of California (here called "Sea of California"), after Kino, titled: "The Passage by Land to California Discover'd by Father Eusebius Francis Kino a Jesuit: between the Years 1698 and 1701. before which, and for a Considerable Time Since California has always been described in all Charts & Maps as an Island."

The present example is heavily annotated in German, focusing on Tennessee, Kentucky, Cumberland, etc.

Detailed Condition:

Cleaned and rejoined.
