One of the more fascinating notes shows a discovery attributed to "Pierre Bertollo" in 1633 near Singapore, referred to as the "Canal de Consicao de N(uestra) S(enhora)." This note references the Portuguese captain Pedro Bertollo's "discovery" of a new passage from south of Bintan and Galang and west of the Karimun Islands, which extended through the heart of the Riau Archipelago in 1633, corresponding with the first year that the Straits of Singapore and Malacca were blockaded by the Dutch East India Company.

Striking dark impression on two sheets.
