Description:

Remarkable large format map of Idaho Territory and the western part of Montana Territory. Idaho is shown with only 9 counties, while western Montana has only 8 counties. The map illustrates the early railroads, settlements, mining districts, Indian reservations, forts and other important early features.

The Asher & Adams atlas was one of the first United States atlases to exclusively feature railroad lines, showing minimal topography (in this later edition more topographical features are added, earlier editions have fewer features shown) and only showing towns on or next to the railroads lines. The 1874 edition is the first to include a separate map of Arizona Territory.
