Map Maker: Rossi
Date: 1687
Place: Rome
Color: Hand Colored
Condition: VG+
Size: 21 x 15 inches
Price: \$ 2,800.00

Description:

Fine Italian Edition of Nicolas Sanson's Map of North America

Finely colored example of the first edition of Rossi's map of North America, from Rossi's *Mercurio Geographico*....

Rossi's map of North America is based upon Sanson's seminal map, but with revised Italian nomenclature.

Includes a detailed California as an Island on Sanson's model, early open ended Great Lakes (one of the earliest appearances of the 5 Great Lakes) and a mislocated pre-La Salle/Jolliet/Hennepin projection of the Mississippi River, pushed well west of its true location and quite speculative in its course. Nice detail in the Spanish Southwest along the Rio Grande, locating Taos and Santa Fe in the North and identifying Cibola.

A number of early Indian names, including the Apaches and Zuni appear. A Lago de Oro is shown off the Gulf of California. Quivera appears in modern day Texas, along with Granada. The East Coast of North America includes many early place names, including N. Amsterdam, Chesapeac, Powhata, Gotheburg (an early Swedish Settlement), Bristou London, Plimouth, Nassau, Elsinburg, R. Iourdain, etc.

The first edition can be distinguished from the later editions by the date (which is changed from 1677 to 1687 in later editions).
