Description:

Gorgeous wall map of South America, dedicated by Senex to Edmund Halley LLD Savilian Professor of Geometry in Oxford, and Fellow of the Royal Society, Corrected from his own Discoveries . . .

The map is a remarkable compendium of geographical detail and contemporary explorations, noting a number of sea voyages in the southern waters of South America, including Sharp's return route in 1681, Sr. la Roche's Course in 1675, Magellan's course in 1520, Americus Vespuccio's course in 1502, and of course Halley's course in 1700. The region where Halley noted floating ice is identified.

Within the map itself, there are a number of interesting observations and annotations in English.
