Description:

A good example of Mitchell's most popular map of the United States of the period.

The wall map is in complete and original condition, including the original green silk on the side edges and original rollers. This map is also found as a pocket map.

The inner map extends west to Texas, Indian Territory and a massive ephemeral Iowa Territory, which at the time extended to the Missouri River and Canada. Thirty-two large insets of cities surround the map, along with insets of Florida and Maine and a large table. The massive Wisconsin Territory is also of note. A fresh vibrant example, with nice colors. A bit of waterstaining to the top and bottom, but in all, one of the best and most decorative examples of this map we have seen.
