**Description:**

Extremely rare early railroad and township map of Indiana, published by George Cram.

Includes excellent detail showing counties, township surveys, towns, railroad lines, and other early details.

George Cram would become one of the most prolific atlas publishers of the last 19th and early 20th Centuries. However, his earliest maps, issued in the late 1860s, were marvelous separately issued railroad maps. His success led to the publication of two editions of his now impossibly rare *Standard American Atlas* in 1875 and 1879, which included a number of Cram's rare separately issued railroad maps.

We have seen only complete example of these two atlases on the market over the past 32 years (1992-2024).
