Colton's Railroad and Township Map of the State of Ohio

Stock#: 98712
Map Maker: Colton / Atwood
Date: 1853
Place: New York
Color: Hand Colored
Condition: Good
Size: 26.3 x 20.7 inches
Price: \$ 345.00

Description:

Vibrant and detailed map of Ohio. All counties are labeled and distinctly shaded to differentiate boundaries with their census tabulation listed on the right hand side.

At the bottom of the map is an engraving of the "new" Ohio Statehouse building. Ohio had planned to build a new statehouse building for years, but the project took on urgency in 1852 when the old Ohio Statehouse burned down. The construction of the new statehouse lasted until 1861.

Colton's "Railroad & Township" maps tend to be some of the largest and most detailed maps of a particular state that he issued.

This appears to be the second edition released a year after the [very scarce first edition](#).

Detailed Condition:

Expected wear and toning where folded. Loss in left extremities, not affecting the map. Slight foxing as pictured.
