### Description:

Attractive original vintage pictorial map of the island of Maui. Showing the archipelago's second-largest island in attractive blue toning, the map shows major roads, towns, Hawaii National Park (as Haleakala National Park was known when joined with Hawaii volcanoes), and other features.

The map also shows points of interest such as the largest Banyan tree on the island, the distribution of agriculture, and geological features, making it a very informative item. Below the map are suggested activities to be undertaken on a visit to the island, as well as images of the imposing volcanic scenery. The verso provides additional text and images.
