Description:

Fine example of one of the earliest coastal charts of the California Coastline produced in America.

The chart includes 17 views of various parts of the California Coastline, including San Francisco Bay, Pt. Piedras, Pt. Año Nuevo, Pt. Sur, Pt. Pinos, Moro Rock, Pt. Sal, Pt. Arguilla, Pt. Concepcion, Pt. Duma, Santa Barbara, San Pedro, the Southern Part of San Diego, Pt. Loma and Catalina Harbor. A highly detailed map, with soundings, sailing directions and other interesting features.

This map is generally regarded as one of the most desirable of all general charts of California. The map is often found with serious browning at the folds or staining, making this clean full color example all the more desirable.
