Description:

Full Original Color Example

Interesting map of Brazil from the 1814 edition of Matthew Carey's *General Atlas*. The map shows the territory of Brazil from the mouth of the Amazon to the Rio de la Plata.

The map was published at the midst of the 14 year period (1808-1822) when Brazil was home to the Portuguese Crown and 1 year prior the creation of the United Kingdom of Portugal, Brazil and the Algarves, which raised the status of Brazil from colony to kingdom.

In this detailed and well-executed American-published map, the many rivers, mountain ranges, cities, and islands of Brazil are all shown. Detail extends several hundred miles inland, but the westernmost part of the map is left blank and labeled "Peru."

Fascinating English and Portuguese language annotations appear in the upper portion of the map as well
