### Description:

#### ***Early Map of the State of Georgia in its Final Configuration***

Nice example of this fine map of Georgia, from the 1822 edition of Carey & Lea's *Geographical, Statistical and Historical Atlas of America*, with two columns of contemporary news accounts pasted to the back of the map.

Many counties still not formed. Size includes text below map, which includes wonderful contemporary details concerning the topography, Indigenous lands, rivers, climate, towns, manufacturing, commerce, education, history, population by county (divided into white, free colored, and slaves), Indian Country and other information.

Large Northwest corner of the map is labeled Cherokee Lands, with Lower Creek lands below. Huge Early, Irwin and Appling Counties shown. Below are East and West Florida.

An excellent early map of Georgia. An old fold split has been reinforced at the centerfold, and there is a small restoration at the centerfold at the bottom of the map (in Florida). Carey & Lea's Atlas is highly prized not only for its cartographic information but the marvelous information about each of the states and territories which is included. The atlas was issued in 6 editions in English, French & German between 1822 and 1827.
