Description:

Remarkable large format map of California and Nevada. Substantial parts of California are now surveyed by the US General land Office, although Nevada is largely unsurveyed. Riverside, Orange, Imperial and a few other counties are still lacking in the south. Many towns, rivers, lakes, mountains, forts, mining districts, Indian information, railroads, stations, etc. are shown. One of the best large format maps the period, from a rare late edition of Colton's atlas. Minor fold split and marginal tear, just affecting image. Normally a \$300.00 map.
