Description:

Striking large format map of North America, featuring an immense Insular California and gorgeous full cartouche, large vignette of the Fisheries in Northeastern North America and 10 insets of major harbors, including Boston, New York, Charleston & Havana. Moll's Codfish map is one of the most decorative large format maps of North America printed in England. The Mississippi is considerably west of its actual location. The Great Lakes are misprojected. Lahontan's Longue River provides a source for the Mississippi as far west as Washington in Mozemleck Country. The Spanish Trade Routes and many Indian Tribes noted. Minor fold splits repaired, but without the usual loss of image. An unusually fresh example, w/ attractive color. Tooley 82, McLaughlin 192.
