Description:

Striking full color example of this attractive map of the Southern half of North America, from the Island of California to Florida. The map shows remarkable detail for a map of its size, including very nice detail in modern day New Mexico and Texas, along with an interesting projection of Florida and the Gulf Coast. The map shows territorial claims, towns, rivers, mountains, lakes, islands, etc. A nice attractive map of the region from London's most famous cartographer of the early 18th Century. A number of early settlements are named along the Gulf Coast and Mississippi River Basin. Wonderful Florida configuration, which varies from Moll's larger maps. Wide clean margins. A fine example, in attractive color.
