Description:

A fine example of HH Lloyd's scarce double page map of this portion of the Transmississippi West, centered on the Rocky Mountains. Tremendous detail throughout, too much early information to describe in detail. Includes counties, towns, railroads, mountains, rivers, explorer routes, US Mail Route, Indian lands and a host of other details. HH Lloyd never did issue his Atlas of the United States, but portion appeared in Warner & Beers Atlases during the 1870s. This map was only included in the earliest editions of the work. Minor fold soiling and a few maringal tears, but still a nice example. This map normally appears dated 1872 and later. 1869 examples of this map are very rare.
