#### Description:

Striking map of Peru, during this fascinating period at the conclusion of Spanish colonial rule. Shows towns, roads, rivers, lakes, mountains, islands, bays, points, etc. Fascinating hachuring style to represent the various mountains and river valleys. Terrific detail throughout. One of the earliest obtainable maps of Peru following its independence. Beginning in the early 19th Century, Lapie was one of the leading French mapmakers, at a time when much of the great exploration and travel literature was being published in French. Lapie was often the engraver of maps which were included in these books. As a result, he often incorporated the most recent information and discoveries in his maps, often appearing prior to the official report from which the information derived. His maps are now prized for their detail, accuracy and attractive engraving style. Left center margin repaired tear into map approx 2 inches.
