### Description:

Striking sea chart showing the coastline from Genoa to Aragon. The chart appeared in Dudley's *Arcano del Mare*, one of the rarest and most highly sought after sea atlases of the 17th Century. Dudley, an Englishman, produced this exquisite work while living in Florence. Dudley labored for decades before finally releasing the first edition of this work when he was 73 years old. A nice example, with a striking compass rose and characteristically fine engraving style. From the second edition of Dudley's rare atlas of sea charts. A bit of paper breakage in the cartouche, reinforced on the verso, but generally a good example.
