Description:

Scarce map of the State of Queretaro in Mexico, from Garcia y Cubas' monumental Atlas Geographico, Estadistico e Historico de la Republica Mexicana. Garcia y Cubas was Mexico's first great lithographer and his work is highly sought after. This map shows the veraious regions within the state, towns, roads, rivers, etc. The surrounding text includes a wealth of information regarding Queretaro, including History, Climate, Agriculture, Minerals, Livestock, Commerce, Population and Itineraries. A bit of dampstaining, but still a nice example of this rare. Only 300 examples of the atlas were reportedly printed and separate maps rarely appear on the market.
