**Description:**

Extremely rare separately issued map of the United States by Tardieu. The map was issued shortly after the Louisiana Purchase (1803), the creation of Mississippi Territory (1804) and the creation of Michigan Territory (1805) and is among the earliest printed maps to illustrate these features.

Two Floridas still appear on the map. The Upper Mississippi is based upon Arrowsmith's map of 1796, which Tardieu also re-issued in several rare variant editions.

Remarkably fine engraving, as is characteristic of Tardieu's maps.

The map was apparently issued in two sheets and also joined. The Library of Congress owns the lower sheet (Gulph of Mexico). No other institutional examples have been located in American Institutions.
