**Description:**

Nice old color example of a later state of Hessel Gerritsz's map of Russia, with the large inset of Moscow and plan of Archangelsckagoroda. The map was compiled from manuscript maps and worck brought back by Isaac Massa. Includes an inset plan of Moscow which is attributed to the Crown Prince Fydor Gudonov. Richly decorated w' a large title cartouche, sailing ships, a compass rose, three Russian gentlemen, and a view of Archangel Sckagoroda. A nice old colour example. Includes some minor marginal repairs which just enter into the image, but overall a striking example.
