Description:

Nice example of Heinrich Buening's clover leaf map of the world, with Jerusalem at the center, based upon the T-O world map model which was prevalent prior to the 16th Century. Europe, Africa and Asia are within the 3 clover leaves, while England, Scandinavia and America lie outside the primary circles.

Heinrich Buening was a theological commentator from Hanover. He first published his *Itinerarium Sacrae Scriptura* in 1581. The work is famous among collectors as one of the great compilations of thematic maps, including Europe as a Queen and Asia as Pegasus. The ocean includes monsters, mermaids and a large sailing vessel. The work was reprinted at least 10 times in several languages over the next 70 years.
