Description:

Rare map of the environs of Dantzick, showing the fortified walls of the City, topography and neighboring communities.

The map shows the Gulf of Dantzick, oriented with Southwest at the top, with the Vistula River entering from the left side of the map, and noting a fortification at the split in the river, along with the names and building locations of numerous smaller neighboring communities around the Gulf.

Includes decorative cartouche, surmounted by a coat of arms and elaborate, if somewhat naively engraved group of nautical and military allegorical figures. The map is apparently quite rare, as we note only one auction record in the past 28 years, as reported by AMPR.
