Description:

The four continents (America, Africa, Asia and Europe) from Pierre Du Val's rare set of 52 playing card maps, engraved on a single sheet. The set is very rare, the last complete set being offered in Arkway's catalogue #58 in 1991 for \$2500.00. The cartography of America is particularly noteworthy, with California shown as an Island, the massive land bridge between America and Asia present and a massive southern continent (Australia) taking shape in the southern Pacific Ocean.
