Size: 12 x 12 inches (each)

Price: SOLD

Description:

Fine example of Boisseau's interesting pair of maps of the northern and southern hemispheres, published circa 1640.

The map provides a fascinating look at the regions of the World, with an unusual projection style and volvelle attached to hte southern hemisphere, a rare survival.

The maps are accompanied by sheet giving the locations of major cities around the world is entitled *Table Generalle Des Longitudes et Latitudes des villes plus renommees du Monde...*, which names Boisseau as the publisher and includes the date of 1649.

There are a number of editions of the map in French and English, the earliest of which includes Boisseau's imprint.
