**Description:**

Stunning full color example of Andriveau-Goujon's 2-sheet map of the United States.

Unlike later editions of the map, the Territory of Colona appears, predating the appearance of Colorado. Similarly, an oddly misprojected Idaho appears, but is called Shoshone. Massive Nebraska runs to the Canadian Border. Arizona is below New Mexico. Many early roads, forts and Indian Tribes noted in the west.

An exceptional clean example of this highly desirable map and essential item for Colorado, Idaho and Western collections.
