Description:

Scarce and highly desirable large format map of Hawaii, from Vandermaelen's seminal Atlas

The map includes a marvelous set of notes in French on the the Islands, plus details of Cook's Tracks through the islands and early place names. The largest representation of Hawaii to appear in a commercial atlas, and the only post-Rigobert Bonne depiction of Hawaii on a separate map for the first 50 years after its discovery.

From Vandermaelen's remarkable 6 volume atlas, which if combined as globe gores forms an immense globe. Vandermaelen accomplished the first atlas mapping of the world on a uniform scale. Fine example.

The map is relatively scarce on the market.
