Description:

Rare Homann map of Portugal with a large inset of Brazil, showing its 12 captaincies. The map is elaborately colored, with several naval battles, a highly ornate cartouche and other details. While we have seen a variant edition of this map issued by Suetter, this is the first time we have ever seen the map published by Homann, apparently some years earlier to the Seutter plate. No appearances in the past 20 years in dealer catalogues.
