Condition: VG
Size: 36 x 24 inches
Price: SOLD

Description:

The Final Major Spanish Expedition To Chart The Coast of Yucatan and Environs

First Edition of Important Spanish sea chart of the Gulf Coast of Mexico and the Yucatan.

This is the rare first edition of the large-scale printed chart of the Coast of Mexico based upon actual soundings and explorations, which would later be re-issued in 1825 in the rare 14 chart *Atlas y Portolano de la America Septentrional*, published in Mexico in 1825, to commemorate Mexican independence from Spain.

First issued in 1808, the map would be revised in 1814, 1821, and 1846 and also issued as noted above in 1825 in Mexico City.

We locate only a single example of the map in the National Library of Spain.
