#### Description:

Nice example of John Reid's map of New Jersey, the second folio map of the state to appear in a commercial atlas.

The map is drawn largely from Carey's map by Samuel Lewis, issued the prior year.

An excellent topographical map, showing the counties, boundaries, principal towns, mountains, rivers, islands and many other details. Includes remarkable details, including land owners names and Indian Reservations.

John Reid's *American Atlas* was the second folio sized atlas published in the US. Reid's atlas, and was originally issued to accompany Winterbotham's *Historical, Geographical, Commercial and Philosophical View of the United States*. It was originally issued with 20 maps, which were engraved by Benjamin Tanner (9), David Martin (5), D. Anderson (2), John Scoles and John Roberts. Two of the maps are without credits.
