## San Diego (Q-2) Sectional Aeronautical Chart . . . Edition of June 1948

**Stock#:** 46941  
**Map Maker:** U.S. Coast & Geodetic Survey  
**Date:** 1948  
**Place:** Washington  
**Color:** Color  
**Condition:** VG  
**Size:** 47.5 x 20.5 inches  
**Price:** SOLD

### Description:

Detailed aeronautical map of Southern California, extending from Catalina and the Channel Islands and Los Angeles to the Arizona Border and to just south of San Diego and the Mexican Border.

The chart is a font of information about civil and military aviation in postwar Southern California. It was intended for civil aviators flying by visual navigation and so includes data that would be useful for this purpose. Topographical information consists of relief and a judicious selection of visual checkpoints used for navigation under visual flight rules. The checkpoints include populated places, roads, and distinct landmarks. The aeronautical information includes visual and radio aids to navigation, airports (aerodromes, both for landplanes and seaplanes), controlled airspace, restricted areas, and obstructions. Sectional Aeronautical Charts were updated somewhat frequently at this time and are now produced by the FAA.

The military information is probably the most interesting aspect of the chart, as it shows the state of postwar Southern California as it adopted an even greater role in national defense. Numerous airbases are noted. The region is positively blanketed with restricted flight zones. Much of the airspace off the coast is labelled restricted and accompanied by the warning:

*Warning, National Defense Operating Area Operations hazardous to the flight of aircraft conducted within this area.*

And:

*Extensive Fleet and Air Operations being conducted to approximately 100 miles seaward.*

Similar charts were prepared for other sections of the country and this one could have been joined with charts of the regions associated with San Francisco, Los Angeles, Prescott, Phoenix, and Douglas, to

**San Diego (Q-2) Sectional Aeronautical Chart . . . Edition of June 1948**

created a larger image.

The map includes a manuscript note from G. & L. Products donating it to the SCSA (Southern California Soaring Academy?) for the 8th Annual West Coast Soaring Contest, a glider competition.

On the Lambert Conformal Conic Projection.

A fascinating chart--the first we have seen on the market.

**Detailed Condition:**

Some toning at folds.
