Fine example of this rare map of the South Florida and the Western Caribbean (including the Cayman Islands).

The map is very detailed, showing topographical details, place names and early railroads in Cuba.

The detail in South Florida and the Keys is much better than in most atlas map of Florida of the period.

The map appeared in the extremely rare Rogers & Johnston *Atlas of the United States*. The map was derived from the monumental and equally rare wall map, an historic collaboration between Professor Rogers, and American, and the Johnston publishing house in Britain
