**Map Maker:** Arrowsmith  
**Date:** 1824  
**Place:** London  
**Color:** Outline Color  
**Condition:** VG  
**Size:** 75.5 x 52.5 inches  
**Price:** SOLD

**Description:**

***The Duke of Arcos Copy of Aaron Arrowsmith's Map of Southeast Asia, The Philippines & South China Sea***

Fine example of Aaron Arrowsmith's rare 4-sheet map of the East Indies, updated to 1824, with the bookplate of the Duke of Arcos: {{ inventory\_enlarge\_link('49928a') }}

The map shows the coasts of the Philippines, China, Burma, Thailand, Malaysia, Indonesia, Sumatra, Vietnam, Cambodia, the Spice Islands and West Papua. Depth shown by bathymetric soundings.

Title set at upper left sheet, with a graticule border, grid at one degree intervals, numerous coastal soundings, wind directions, and shoals indicated. The map includes details of the best clipper routes to China at various months of the year, as well as the routes of various English navigators, including Cook.

The map was first issued in 1800, with revisions in 1809, 1812 and this 1824 state. We note the following significant changes from the 1812 edition:

**Northwest Sheet**

- The western coast of Tanasserim and Achipelago of Mergui and neighboring islands are revised
- The western coast of Malaysia from Phuket and to the south is completely revised, as are the islands
- The Chinese Coastline, south of Hong Kong, has been revised
- Additional place names added on Hainan Island

- Eastern Part of Java extensively updated, with detail in the interior added
- The shape of Bali Island is revised
- Coast of Timor revised
- Several lengthy notes added
- West coast of Gilolo revised
- Coast of Waigeo Island revised

The map presents an impressive four sheet chart of the navigation routes through the southeast Asian archipelago to China and the Philippines. Arrowsmith was a very inventive and accurate mapmaker. This map may have been commissioned specifically for an Asian trading company and was certainly aimed at English sea captains and companies trading to China and southeast Asia.

The detail on depth soundings, winds, obstructions and general accuracy is a trademark of Arrowsmith's fine work. Arrowsmith moved to London in 1770 and was employed by both Faden and John Cary. In 1790, he set up on his own and made his reputation with his 8 sheet world map on Mercator's projection, 1790. It was not until the end of the 19th century that the Hydrographical office of the Royal Navy sent its surveying ships *Sulphur*, *Samarang*, *Herald* and others to the region that accurate nautical charts became
