#### Description:

##### ***Rare First Edition of The Lucas Map of Georgia***

Nice example of Fielding Lucas' early map of Georgia, from his *New & Elegant General Atlas of the United States* . . .

The Western and Southern counties still do not appear and the region is dominated by Indian Lands. Several early towns appear in the west, along with a number of roads. Includes towns, counties, roads, rivers, mountains, forts and many other early details.

Along the bottom is a note identifying the "South Boundary of the United States," pre-dating the Adams Onis Treaty.

Striking example of Fielding Lucas' fine work, which distinguished him as the best publisher of the era. His maps are printed on a higher quality paper than contemporary maps by Carey & Lea and demonstrate a superior engraving quality and more attractive coloring style.
