**Color:** Hand Colored  
**Condition:** VG  
**Size:** 21 x 18.5 inches  
**Price:** SOLD

### Description:

Detailed map of Asia, based upon Johann Mattheus Haas' stereographical projection of the world.

Haas was a mathematician and cosmographer teacher at the University in Nuremberg. Among his accomplishments was one of the more interesting world projections of the 18th Century.

The map notes the Mare Orientale Minus ve. Corea . . . which is likely a reference to the Eastern or Korean Sea in Latin.

Nice example of this attractive map with decorative cartouche and scale of miles.
