### Fielding Lucas, Jr.

Fielding Lucas, Jr. (1781-1854) was a prominent American cartographer, engraver, artist, and public figure during the first half of the 19th century.

Lucas was born in Fredericksburg, Virginia and moved to Philadelphia as a teenager, before settling in Baltimore. There he launched a successful cartographic career. Lucas's first atlas was announced in early-to mid-1812, with production taking place between September 1812 and December of 1813, by which point the engravings were complete. Bound copies of the atlas -- *A new and elegant general atlas: Containing maps of each of the United States* -- were available early in the next year, beating Carey to market by about two months. Lucas later published *A General Atlas Containing Distinct Maps Of all the known Countries in the World* in the early 1820s.
