### Description:

Remarkable map of Peru and Ecuador, with a large inset of the Coastline to the South.

The detail of the map during this period of Revolution in South America is truly remarkable. Highly detailed regional map, one of the best regional maps of the area to appear in an English Atlas during the period. Pinkerton's now rare elephant folio atlas is one of the best engraved works of the period. While lesser known than the more common atlases by Cary & Thomson, it is a superior work, especially in the detail of the maps. A nice example, with only minor soiling at the outer margins.
