### Description:

Rare separately published wall map of North America, which also appeared in Andriveau-Goujon's *Atlas Choix*.

Very unusual treatment of the Transmississippi West, including a misshaped Texas, Ozark District, Mandan District, Osage District, massive Nebraska Territory, Kansas still extending to the Rocky Mountains, Washington and Oregon extending the Rocky Mountains and still no Colorado.

Early primitive attempt to depict Washington and Oregon Territories, and a host of other fascination details. Excellent Indian detail.

A highly detailed and scarce map.
