Description:

Finely colored chart of the World's mountains and rivers, featuring numerous erupting volcanoes.

A fine thematic chart illustrating the relative sizes of the world's tallest mountains and longest rivers.

The chart also illustrates the relative heights of the world's tallest waterfalls. The rivers are aligned at upper left with the mountains and volcanoes filling the lower right with the major cities noted throughout with their elevations noted on the mountain portion.

Extensive text in French surrounds the main image.

Detailed Condition:

Minor foxing.
