### Description:

Decorative map of Maine from Finley's *New General Atlas*.

The map is hand colored by county, showing towns, roads, railroads, lakes, rivers, mountains, etc.

One of the best maps of the state during the period.

Anthony Finley was the dominant map maker in the United States from the early 1820s through 1831. His *Atlas* was a huge success, far outselling rival atlases by Carey & Lea and Tanner. Its elegant engraving style, high quality paper and topographical detail made it the best regularly published atlas, with maps corrected and updated as often as yearly during the run.
