Description:

Rare Beauplan Map of Bratslav Region of Ukraine

Fine old color example of Beauplan's map of the region of Ukraine centered on the Bug and Hirs'kyi Tikych Rivers, published in Amsterdam by Johannes Blaeu.

Extends west to Krasno, Poland and the area immediately east of Crakow.

Blaeu's first state of the map of the Kiev region of Ukraine and vicinity, based on Guillaume le Vasseur de Beauplan's map. In the first half of the 17th Century, the French military engineer Guillaume le Vasseur de Beauplan (1595-1685), completed an extensive survey of the Ukraine commissioned by the king of Poland Ladislaus IV. Apart from the extensive map of the Ukraine which Beauplan completed in 1639, De Beauplan also created a detailed map in six sheets, which was finished in 1651.

Johannes Blaeu created four maps of Ukraine based on Beauplan's 6 sheets, detailing the regions of Pokuttia, Podillya, Bratslavschyna and Kyiv.

In 1721, the imprint of Covens and Mortier was added shortly after the firm's acquisition of the original copperplates.
