Scarce sea chart of the North Atlantic, published in Paris by Aime Robiquet.

Includes contemporary annotations, showing the tracks of a voyage.

The sea chart is apparently quite rare on the market, as we note no other examples at auction or in dealer catalogs in the past 30 years. This is the third example we have had.

**Detailed Condition:**

Blue ink bookseller's stamp of "Librairie de A. Delaport" in the lower right margin. Extensive ink manuscript sea tracks out of the English Channel and to the West Indies.
