### Description:

A striking map of Brazil, published by John Arrowsmith. This map shows more detail than any contemporary commercial atlas map of the region. Many settlements, roads, geomorphological features, rivers, and more are all shown. The states of Brazil are all shown, with Rio Negro going slightly off of the map. Other countries, including Paraguay and Uruguay [named Banda Oriental], are shown in full. Parts of the neighboring regions of Columbia, Bolivia, and La Plata are all given in some detail.

This map is well designed and contains extensive information and detail, typical of Arrowsmith's maps. In all, it is a clear map of one of the great powers of South America, before its borders would be fully cemented in the late 19th century.

The map appeared in John Arrowsmith's *London Atlas*.
