## **Description:**

An elegantly engraved and highly detailed map or Arkansas, based upon Tanner's work in the early 1840's.

Shows counties, towns, roads, canals, lakes, etc. While often referred to as the German Mitchell, this characterization is unfair, as the work appears to be a collaborative effort which predates the sale of Tanner's plates to SA Mitchell.

This map was published in Germany at a time when immigration to America was strong in Germany and would have been the only map of the region published in Germany during this time period which would have been reasonably available to prospective emigrants.
