## Phoenix Area

**Stock#:** 73858  
**Map Maker:** NASA / Kodak  
**Date:** 1991  
**Place:** n.p.  
**Color:** Color  
**Condition:** VG+  
**Size:** 17.5 x 22.5 inches  
**Price:** \$ 145.00

### Description:

Interesting photographic poster of satellite imagery of Phoenix, taken by NASA in May of 1991.

The image encompasses all of the Phoenix metro area, as it was in the early 1990s, with surrounding mountains, etc.

The map comes from a series of posters that were apparently prepared by Kodak for internal use to demonstrate how their technology could be used with the budding field of satellite imagery.
