Description:

A marvelous transitional map of the Western United States. Washington wraps Oregon. Massive Dakota Territory includes Montana and Wyoming. Nebraska runs to the Rocky Mountains and Arizona is below New Mexico. Nevada is a tiny sliver, before the US Government decided to reduce the territory controlled by the Mormons. Alaska is Russian Possessions. The map shows a number of important overland routes, including the Pony Express and U.S. Mail Route to San Diego. Also filled with Indian place names. British America is colored by Provinces, considerably more of them than currently exist appear in Canada. Minor fold split and a bit of soiling, else a nice map. Minor soiling, but still a nice example.
