The chart covers the crucial mid-Atlantic island chain of the Azores, which played such an important role in maritime commerce and strategy, especially in the 18th century.

This was one of the best charts possessed by the French navy of the Azores during the latter half of the 18th century. And the title indicates that the map was intended to serve the vessels of the King.

The chart includes inset coastal profiles of Flores, Corvo, Fayal, etc.
