Description:

Striking and highly detailed map of the region from Sumatra and Malaca and Southern China to the Philipines, New Guinea and Northern Australia, centered on Borneo. Includes a large inset of the Marianas. Wonderful early detail, derived from the Neptune Orientale, published by the French Hydrogrphical Department in the mid 18th Century. Large Decorative Cartouche. Pedley, Bel et Utile, #413. A bit of discoloration and staining near the cartouche and a narrow lower margin, else a nice example.
