### Description:

Highly unusual chart of the Marvels of Nature. Includes Mountains, Glaciers, Volcanoes, Geysers, Icebergs, Dinosaur Fossils (Mammoth) and a host of other natural and man made wonders. Extraordinary color, most likely using a combination of water colors and guache. Wide margins and a large sheet, which was apparently bound into an atlas, but never folded. The first time we have ever seen this plate. A gorgeous example of mid-19th Century French Natural History graphic art.
